

MIKE JAMES PRESENTS

Arora

An Azimuth Design GENERIC girl kit!

Arora is what is known as a "blank" kit, a kit designed to be made into any number of different characters. Shown here is the basic nude blank in a standing pose. But Arora can also lay flatly on her back, with head, derriere, and heels all on the same plane. Dress her any way you please. Scroll below to see 4 of our own build-up ideas to help get you thinking.

Arora also comes with some dandy optional parts! (See below.)

Mike really loves the flexibility of this kit.

Arora is a blank, intended to spark your imagination to create your own character.

Here, Mike has created 4 sample characters to show you some of the possibilities,
simply using masking tape, paperclips, and bits from his spare parts drawer.

Sculptors please note: This blank kit is for "personal" hobbieist modification only.

Arora is not to be used as a basis for marketing your own kit.

Arora as basic kit buildup	Arora as chrome cyborg "Ann Droid"	Arora as electri-fried "Frankenstina"	Arora as the mummied "Cleopatrix"	Arora as the fascist "SuperVixen"

Instruction & Painting Tips

We have had a lot of illegal knock-offs of our kits sold in foreign countries. Remember, Azimuth Design **only** sells directly to the customer, not in stores. If your kit does not include the *Certificate of Authenticity* below, with the **Raised Seal and personally-inked signature of Mike James**, you do not own a Mike James original piece of art. It takes a lot of time, skill and money to bring you these precious girls. Please support creators, not thieves. Contact us if you suspect illegal activity, or if you see a Mike James kit or image being used for profit.
